**International Journal Recent Technology and Engineering**

The development of Cyber Physical Infrastructure technology in industry 4.0 is very interesting and widely studied. This happens, because CPI has become the backbone of Industry 4.0. An in-depth study of the development of the CPI training kit design for industry 4.0 has been completed. For this reason, dissemination and publication of the results of this research are important. CPI Training Kits for industry 4.0 are very important to be developed to support various training programs at industry 4.0 technology training centers.  
After learning more about IJRTE, I strongly believe that IJRTE is a suitable journal for this paper.  
I hope this paper can be reviewed and published in your journal.
