3rd SCESCM 2016 <scescm2016@gmail.com>

19 Desember 2016 05.25

Kepada: swidodo@uny.ac.id

Dear valued Authors of the 3rd SCESCM,

I would like to give you an update on the publication process. We up loaded 184 papers to the Elsevier's system. Soon 165 were returned due poor pictures' quality. Most pictures were blur, had a sizes less than 300 dpi. Other issues were poor transfer from word to pdf resulting in missing symbols and notations. We decided to work on the issues ourselves, since returning them to you and awaiting corrections will take too long. We had a very short time frame.

Finally, we re-up loaded the papers. But again 88 were returned due to picture fonts that were not standardized, or vague, or, even worse, unreadable. This work took a lot more effort since we had to remove the old texts and re-type these into the papers. After re-up loading, again 55 were returned due to text that were on top of the pictures and thus not clear. Our team worked around the clock to repair these problems. And as of yesterday, we send the papers to Elsevier. Let's hope that they will now accept our work.

This is just a reminder for all of us how important it is to follow the template to the letter. We as committee also learned a lot, it will take a more restrict evaluation and paper selection system to avoid these kinds of problems in the future. For all of you who sent us questions concerning the publications, we do our best to do the process as fast as we could, but this is where we stand now.

Thank you for your understanding,

Aylie

Dr. Ir. Han Ay lie, M.Eng
Chair of the Scientific Committee

The 3rd SCESCM

International Conference on
Sustainable Civil Engineering Structures
and Construction Materials

September 5-7, 2016
Bali, Indonesia

Gadjah Mada
University

Hokkaido
University

Registration fee

	On / before June 10, 2016	After June 10, 2016
Full Participant		
(including PhD students)		
Overseas participant	USD. 500	USD. 600
Indonesian participant	IDR. 3.000.000	IDR. 3.500.000
Student participant		
Overseas student	USD. 300	USD. 400
Indonesian student	IDR. 2.000.000	IDR. 2.500.000

The registration fee includes seminar kit (hard copy of abstract, USB proceeding and goody bag), lunch and coffee breaks. The conference proceeding is available online and indexed by Scopus.

Introduction

SCESCM is an international conference focusing on sustainability concept implemented in design, construction and maintenance in any civil engineering structure. The conference is organized every two years since 2012 and is increasingly enriched by outstanding keynotes, invited papers and selected participant's papers sharing the latest scientific findings and achievements among civil engineers across the globe.

Organizers:

Gadjah Mada University, Karlsruhe Institute of Technology, Hokkaido University, Diponegoro University, Atma Jaya University Yogyakarta, Indonesian Islamic University, Lehigh University, TU-Delft.

Supporting Organizations:

Indonesian Society of Civil and Structural Engineers (HAKI), Japan Society of Civil Engineers (JSCE), Asian Concrete Federation (ACF), International Federation for Structural Concrete (FIB), International Association for Bridge and Structural Engineering (IABSE).

Participants

The conference is expected to draw participants from academia, researchers, students, professionals, and civil engineering industries.

List of topics

Topics for which papers are invited cover (but are not limited to) the following: green construction materials and technologies, construction management, construction method and system, optimization and innovation in structural design, environmental impact and green design, local and recycled materials, forensic engineering, structural health monitoring system, assessment and retrofitting, hybrid and composite structures, smart materials and structures, special structures, structural dynamics and earthquake engineering, structures in severe environment, and disaster mitigation and restoration.

Keynote Speakers

Harald S. Mueller, Karlsruhe Institute of Technology
Tamon Ueda, Hokkaido University
Stephen Pessiki, Lehigh University
K. Van Breugel, Delft University of Technology
Billy F. Spencer, University of Illinois
Gary Ong Khim Chye, National University of Singapore
Masahiro Yoshimura, National Cheng Kung University

Invited Speakers

Teddy S. Theryo, Parsons Brinckerhoff, Inc.
H.M. Jonkers, Delft University of Technology
Buntara Sthenly Gan, Nihon University
Tam Chat Tim, National University of Singapore
Petr Hajek, Czech Technical University
Salman Azhar, Auburn University
Bonaventura H.W.H. , Asian Institute of Technology
Paolo Mele, Muroran Institute of Technology
Tamio Endo, Gifu University

Conference language

Papers and posters shall be written and presented in English.

Call for papers

Prospective abstract of papers shall be submitted via official website and be no more than 300 words. The official language is English. Please upload the abstract to the official website.

All accepted papers will be published in a special issue of Elsevier Procedia Engineering indexed by Scopus where the publication will be made available on sciencedirect.com in perpetuity.

Excellent research papers are invited to be published in the International Journal of Technology (ijtech.eng.ui.ac.id) and Journal of Civil Engineering Dimensions (ced.petra.ac.id).

Important dates

July 1, 2015	– Call for abstract
December 17, 2015	– Deadline for abstract submission
January 15, 2016	– Notification for abstract acceptance
April 1, 2016	– Deadline for full paper submission for peer review
May 6, 2016	– Notification of full paper acceptance
June 11, 2016	– Deadline for camera-ready manuscript

Mini Symposium

1. Material Sciences for Sustainable Civil Engineering
Paper submission code: **MS-MSSCE**
2. FRP Repaired Structures
Paper submission code: **MS-FRP**
