PERSPEKTIF KEPEMIMPINAN PENDIDIKAN UNTUK SEKOLAH EFEKTIF

Oleh: Slamet Lestari *

ABSTRACT

Effective educational leader must be able to combine and create synergy role as chief executive and leading professional. Education leaders have a responsibility to create an organizational culture that enhances the development and growth of the organization. Characteristic of educative leader is the leader provides opportunities for school members to develop self-understanding and push on to reflect conditions in practice. Education leaders have three main roles: the areas of leadership, managerial, and curriculum-teaching. These three roles (including those aspects in it) must be able to run an effective school principal so that support school improvement.
