Dear Sutirman Sutirman,

All the references that you have listed under section References must be cited in the text where you have used them with the reference number in square brackets at the end of the sentence or the paragraph (e.g. [1]). If you have not specified them in the text, do not list them under section References.

The references in the text cannot be concentrated in one place (not more than two or three), but they need to be deployed in the text in those places where you have used them.

Rearrange references in APA style, for example:

[1]. Hemmasian Kashania M.M., & Dobregob K.V. (2013). Heat and mass transfer in natural draft cooling towers, *Journal of Engineering Physics and Thermophysics*, 86(5), 1072-1082.

After the corrections you should send us your paper again.
